

VICTOR ZION

Technical Writer | Documentation Engineer

Akwa Ibom, Nigeria • (+234) 810-5123-142 • [Victor Zion](#) • [Twitter](#) • [Portfolio](#) • [Medium](#)

PROFESSIONAL SUMMARY

Technical Writer and Documentation Engineer with 3 years of experience building developer documentation, API references, and content systems for AI and SaaS platforms. Skilled in LLM-assisted content tooling and docs-as-code workflows, with measurable impact including 40% organic traffic growth and 50% documentation cycle reduction through automation.

EXPERIENCE

Hackmamba.io, Delaware, United States — Documentation Engineer (Remote)*October 2025 - PRESENT*

- Migrated documentation platforms for nTop, Coinbase, and FrankieOne from legacy systems (Hugo, Zendesk, LearnDash) to Mintlify, restructuring information architecture for discoverability.
- Partnered with engineering teams to translate complex system features into clear, actionable developer documentation.
- Drove a 40% increase in organic traffic through SEO-optimized content structure.

Demz Aminytics, London — LLM Engineer (Hybrid)*January 2025 - April 2025*

- Built a Markdown documentation automation engine using OpenAI o3-mini and vector embeddings, cutting documentation cycles by 50% for internal initiatives.
- Created a screen-recording summarization tool with faster-whisper and o3-mini to auto-generate written action points, lifting team efficiency by 30%.

GemNexus, Nigeria — Chief Technology Officer (Remote)*December 2025 - PRESENT*

- Directed technical communication and documentation standards for a digital literacy training platform.
- Owned roadmap and QA for career advisory tools, ensuring product content stayed clear and consistent.
- Mentored the engineering team on writing and delivery practices.

KEY PROJECTS

Redocly — Mintlify-hosted developer documentation site for Redocly, an open-source tool that generates three-panel web docs from OpenAPI/Swagger files. Built with Markdown, React, Mintlify, JSON.

techDNA — AI-powered career discovery quiz with a follow-up written consultation model. Built with HTML, CSS, Vanilla JavaScript, EmailJS, Google Gemini API.

EDUCATION

University of the People, Pasadena, California — B.Sc. Computer Science (In Progress)

June 2026 - Present

Akwa Ibom State University, Ikot Akpaden, Mkpato Enin, Nigeria — B.Sc. Computer Science

March 2019 - March 2023
